European Journal of Operational Research 41 (1989) 375–376
North-Holland

Contents Volume 41

1 Operations Research in project management and cost engineering: An outlook for new operational developments
L. Poiaga
15 Forecasting under unstable conditions: A case study of the cocoa market
J. Boas
23 Redesign of primary response areas for county ambulance services
J.R. Baker, E.R. Clayton and L.J. Moore
33 Computer-based modeling environments
A.M. Geoffrion
44 Simulation-optimization: The method and its application in the analysis of grain terminal operations
R.C. Guimarães and B.G. Kingsman
54 On the heterogeneous machine interference problem with priority and ordinary machines
A. Pósafalvi and J. Sztrik
64 The minimax center estimation problem for automated roundness inspection
J.A. Ventura and S. Yeralan
73 Estimating nonparametric convex functions using gradient data
M.Carey
86 Conflict models in graph form: Solution concepts and their interrelationships
L. Fang, K.W. Hipel and D.M. Kilgour
101 Advising very senior management—some reflections
R.H. Collcutt
108 Operational Research in practice: Experiences of an OR group in industry
L. Fortuin and M. Zijlstra
122 OR Software
ORSEP — Operations Research Software Exchange Program, *H.W. Hamacher (ed.)*
124 Short Book Reviews, *K.B. Haley and A.M. Tobias (eds.)*

127 Recent contributions to optimal product positioning and buyer segmentation
P.E. Green and A.M. Krieger
142 DSS and ES in the 'Information organization'—Back to the roots of OR
H.J. Grünwald and L. Fortuin
151 Optimal, near-optimal and rule-of-thumb claiming rules for a protected bonus vehicle insurance policy
D. Chappell and J.M. Norman
157 Optimality of the shortest line discipline with state-dependent service rates
P.K. Johri
162 Asymptotic analysis of some complex renewable systems operating in random environments
V. Anisimov and J. Sztrik
169 On the stability region for multi-level inventory problems
K. Richter and J. Vörös
174 State reduction in a dependent demand inventory model given by a time series
G. Reyman
181 A modified priority index for Günther's lot-sizing heuristic under capacitated single stage production
W.J. Selen and R.M. Heuts
186 A new heuristic method for the flow shop sequencing problem
M. Widmer and A. Hertz
194 *k*-optimal solution sets for some polynomially solvable scheduling problems
P.J. Brucker and H.W. Hamacher
203 A comparison of two interactive MCDM procedures
G.R. Reeves and J.J. Gonzalez
210 Interactive decision making in fuzzy linear optimization problems
H. Rommelfanger
218 A min–max resource allocation problem with substitutions
J.-S. Pang and C.-S. Yu

0377-2217/89/$3.50 © 1989, Elsevier Science Publishers B.V. (North-Holland)

224 Algorithms to solve the orienteering problem: A comparison
C.P. Keller
232 An optimal column-generation-with-ranking algorithm for very large scale set partitioning problems in traffic assignment
C.C. Ribeiro, M. Minoux and M.C. Penna
240 Evaluating the maximize minimum distance formulation of the linear discriminant problem
P.A. Rubin
249 OR Software, *H. Thiriez (ed.)*
251 Book Reviews, *K.B. Haley and A.M. Tobias (eds.)*
255 Short Book Reviews, *K.B. Haley and A.M. Tobias (eds.)*
256 EURO Bulletin, *M. Despontin (ed.)*

261 Integrated inventory models: The buyer–vendor coordination
S.K. Goyal and Y.P. Gupta
270 A microcomputer system for formulating animal diets which may involve liquid raw materials
A.G. Munford
277 A mathematical model for scheduling and staffing multiclinic health regions
L.S. Franz, H.M. Baker, G.K. Leong and T.R. Rakes
290 A banker's use of simulation and artificial intelligence for assessing the economics of electronic money networks
P.K. Coats
302 Managing interest-rate risk in banking institutions
G.G. Booth, W. Bessler and W.G. Foote
314 Distance weighted voting and a single facility location problem
R.V. Vohra
321 A method to control Flexible Manufacturing Systems
G.W. Hintz and H.-J. Zimmermann
335 Module design with substitute parts and multiple vendors
J. Goldberg and J. Zhu
347 Redundancy in lexicographic goal programming: An empirical approach
F. Amador and C. Romero
355 Approximating the noninferior set in linear biobjective programs using multiparametric decomposition
R.S. Solanki and J.L. Cohon
367 OR Software, *H. Thiriez (ed.)*
369 Short Book Reviews, *K.B. Haley and A.M. Tobias (eds.)*
370 EURO Bulletin, *M. Despontin (ed.)*
375 Contents Volume 41
